

## **Intent Declaration for Collaboration**

You are willing to contribute to speed up the process of sustainable transitions, and share your team idea with fellow students. Great! In this *Intent Declaration for Collaboration* the team members of your Biobased Battle Project express their mutual interest in future collaborations, with students of other academic disciplines within institution HAN, an initiative focused on the exchange and development of innovative ideas. In this document all team members agree to have the ideas generated and presented during the Biobased Battle Project to be documented in a designated Portal (the "Pitch Portal") for evaluation and potential utilization by students from other academic disciplines within institution HAN. In this *Intent Declaration for Collaboration* team members can also express their ambitions for future collaborations and possible interests in entrepreneurial coaching. Your contribution is highly appreciated.

## **Rules of Agreement**

### **Inclusion in the Pitch Portal**

The ideas presented during the Project will be included in the Pitch Portal unless a group member explicitly objects to the inclusion of a specific idea. Such objection can be raised at the signing of this agreement. Subsequently, it must be communicated in writing to [Franceina.vanZalk@han.nl](mailto:Franceina.vanZalk@han.nl) and to all other group members within 14 (fourteen) days after the presentation. The idea will then not be included in the Pitch Portal.

### **Use of Ideas**

Students with access to the Pitch Portal may view the ideas presented therein and, subject to the conditions mentioned herein, proceed with developing these ideas. The group members hereby waive any claims to rights, titles, or interests in the ideas once a decision is made to further develop an idea.

### **Contact and Collaboration**

Upon agreement to this Intent Declaration for Collaboration, a student interested in a particular idea may contact the original group member or members for more information or to inquire about the possibility of further collaboration. Any further longterm collaboration is subject to a separate agreement to be negotiated in good faith by the interested group members. A coach of the HAN Entrepreneurship Education can be assigned to the team as a whole.

### **No Legal Obligation**

This agreement does not create any legal obligation for any group member to proceed with a specific project, transaction, or relationship. The group members enter into this agreement with the intention of collaborating in good faith and exploring potential opportunities.

### **Thus agreed and signed:**
